Consorta Designates Precyse Solutions as Preferred HIM Provider

Leading healthcare resource management and group purchase organization focuses on Precyse's technology and consulting strengths

Wayne, PA — October 23, 2008 — Precyse Solutions, the leader in driving peak Health Information Management (HIM) performance through technology and management solutions, has been designated by Consorta, Inc. as a preferred provider of HIM services and technology for Consorta's 500+ acute care hospitals and 2,400 different care delivery sites. Under the agreement signed by the two organizations, Precyse will make its Remote Coding technology platform and wrap around services, its Chart Storage technology, as well as its Clinical Documentation Improvement services and online Coder Skills Assessment tools available to Consorta member facilities, at volume buying levels.

Consorta understands the need to extend its contracting activities to include service and technology providers that support best practices and can help its member hospitals drive down costs while improving the quality and efficiency of their operations.

Consorta members may now contract with Precyse for its ASP-based Remote Coding Platform; Remote Coding Services; Remote Coding QA Services; ASP-based Chart Storage Technology Services (providing concurrent chart access); Online Coder Skills Assessment Tools; and Clinical Documentation Improvement Services.

Jeffrey S. Levitt, founder and Chief Executive Officer of Precyse, comments, "We view this development as one where Consorta is proactively securing value-added providers of services and technologies for its diverse provider members. The Precyse components and services selected by Consorta will have a direct positive impact on the cash flow of member hospitals. Accurate and timely clinical documentation in turn facilitates accurate and timely coding, and the utilization of remote technologies and personnel to assist in the assignment of diagnosis and procedure coding helps to accelerate the entire revenue cycle process. Precyse is always pleased to be partnering with forward-thinking organizations like Consorta."

About Precyse Solutions

Precyse Solutions is the leader in driving peak performance within Health Information Management (HIM) departments of US hospitals and large health care providers. The Precyse Performance Benchmark measures key performance indicators of HIM departments against industry standards to determine areas of strength and needed improvement. Precyse's services support best practices in multiple areas including: remote and on-site coding, transcription, audit and education, cancer registry, consulting and interim/long-term management services.
