

FOR IMMEDIATE RELEASE:

Precyse Solutions and Baptist Health System Implement New Transcription Outsourcing Deal

Wayne, PA, April 11, 2005 – Precyse Solutions and Baptist Health System of Alabama have completed the implementation for the complete outsourcing of Baptist's HIM Transcription Services. Baptist Health System includes more than seven hospital facilities throughout the state of Alabama.

Precyse Solutions was selected because of its technology platform along with its strong client references, credentialed staff and proven best practices. Baptist was seeking a solution to increase and improve the electronic flow of information between its facilities and the providers' private offices.

All seven facilities successfully implemented the Precyse Solutions Transcription platform within a record-breaking 8-week period. Response to the decision to outsource and the subsequent implementation cycle has been overwhelmingly positive. The outsourcing initiative is part of a large, system-wide initiative undertaken by new Baptist CEO Beth O'Brien, to dramatically reduce costs and improve internal processes. The outsourcing of HIM Transcription Services to Precyse is projected to save Baptist more than \$200,000 annually while dramatically improving workflow and ease of access to information.

"The people at Precyse clearly impressed us with their desire to accomplish our objectives," remarked Rhonda Childress, Corporate HIM Director for the System. "We presented Precyse Solutions with a daunting challenge to implement the platform in an abbreviated timeframe. They rose to the challenge and exceeded our expectations. We couldn't be happier with our decision to partner with Precyse."

Jeff Levitt, founder, Chairman and CEO of Precyse Solutions remarks, "We are pleased that Baptist Health System has put its trust in Precyse's technology, people and processes. The tested best practices that we have developed over the years should prove to advance Baptist's mission to control their costs and improve their performance. We look forward to a long and successful partnership."

About Precyse Solutions

Precyse Solutions is an industry-leading provider of outsourced Health Information Management/Medical Records (HIM) services to hospitals and healthcare organizations within the U.S.. Healthcare providers utilize Precyse's services to accelerate cash flows, reduce their operating expenses, streamline workflow processes, improve the capture and coding of clinical information, and maintain regulatory compliance.
